### Drivers: Please complete this side

I have offered to use my privately owned vehicle for transporting students to a school related activity. I certify that I possess a valid, unrestricted California Driver's License and that I currently have \$100,000/ \$300,000 in automobile liability insurance coverage on the automobile to be used.

Persons who offer to use their privately owned vehicle for student transportation to school related activities should be aware that although there is a liability insurance policy for the Diocese, it is the individual driver's own insurance that must provide the coverage for him/her in case of an accident.

Copies on file: Valid, unrestricted California Driver's License: Declaration Page of Automobile Insurance Policy.

I understand that the law requires seatbelts for each person in the car who is age four (4) weighing under forty (40) lbs. must ride in a secured car seat.

The California Highway Patrol recommends that convertible car seats can be used facing either to the rear for infants under one (1) year, or to the front or older children from twenty (20) to forty (40) lbs. When seat faces forward, it is in an upright position.

Effective January 1, 2002, California law requires every child over forty (40) pounds and under the age of six (6) or weighing at least sixty (60) pounds to be properly secured in a child restraint that meets federal motor vehicle safety standards-<http://www.chp.ca.gov/html/boosterseats.html>

I am further aware that for vehicles with air bags the National Highway Traffic Safety Administration recommends:

- Children age 12 and under should ride buckled up in a rear seat.
- Infants in rear facing child safety seats should NEVER ride in the front seat of a vehicle with passenger side air bag.
- If children 12 years and younger must sit in the front seat, first ensure that they use seat belts and/or child restraints appropriate for their size or weight. Then move their vehicle seat all the way back. The child needs to be sitting with his/her back against the seat back, with as little slack as possible in the belt. I will take every precaution to ensure the safety of all those in my vehicle.
